

Explore Vienna and its surrounding

26. May 2013

- [Bicycle](#)
- [Excursion](#)

Today especially the sports enthusiasts among you should read on, because if you like to ride the bike, then you are quite right in today's blog.

Just a few steps away from where I work during the week in the 1st district (you might remember my dear readers and guests, that I work in a large insurance company office in downtown :-)), from the "Ringturn" a small but fine company pitched its tents.

What I am talking about is Vienna Explorer, who have a lot to offer you to get to know Vienna and its surroundings. Why do I have previously addressed the sports enthusiasts among you, well, it focuses on guided bicycle tours.

You can explore Wachau valley (including a visit to a "Heurigen" and swimming in the River Danube) explore, take a bike ride through Vienna or swing around on a Segway and thus discover Vienna. But not only sporting tours are in the program, also on foot you have exciting opportunities to rediscover Vienna, like in the morning with the morning tour or the evening walk at the blue hour when Vienna at dusk overwhelms you with a fascinating play of colors.

And much more is waiting for you. Simply look at the [website of the Vienna Explorer](#) and find many interesting ideas how to explore Vienna.

In this sense, I wish you a nice rest Sunday

Sincerely yours Stephanie from the Appartements Ferchergasse
