

2020 - a year that turned out differently

15. December 2020

- [About Us](#)

A strange year is drawing to a close. A year that turned out completely different than planned. A year that changed the world. A year in which everything turned out differently than planned.

And yet a lot has happened in our apartments when I think back.

Therefore, there is still the annual review to be written...

One constant is the annual painting and repairing, that we did again in 2020. But that wasn't all that we did, because a lot has happened in some of the apartments.

Apartment F21 / 18 has seen the most noticeable change. We have completely redone the small bedroom. New beds, new wardrobe and the room looks completely different. The living room has a new carpet, a new couch and new chairs by the dining table. It just looks great. And the doors have also been repainted.

There are also new sofas in apartments R02 and R26, even more comfort for you. And because your food also needs to be stored well and cool, apartments R02, R26 and H03 have also got a new refrigerator. The old ones were just, well, getting on in years. Keyword kitchen. Look forward to the new kitchen countertops in apartments 1, 2, 3 and 4 - stone slabs. Now cooking is even more fun and they look really great.

More new stuff...

I recently got a camera, a camera that can also create videos. As you know, I'm also a yoga teacher. Since we are currently not allowed to teach in any studios, our living room was simply converted into an online studio and I teach live from the living room and also create fine yoga videos. But that requires a good camera, which I now have.

What does all this have to do with the apartments? Of course, the camera can do a lot more than just great videos, it's a really great camera. That's why there are now a lot more photos and sometimes videos on Facebook, because taking photos with the camera is a lot of fun. So, if you can't come to Vienna, we will keep you up-to-date with what is happening here and how the apartments are doing.

Actually, the annual preview of what we are planning for 2021 would now come. But that's different this year too, because can we really plan something? Also 2020 was planned in a different way...

Therefore we prefer to stay with the anticipation when we can welcome you as our guest again. Until then, take care of the apartments so that they don't feel so lonely and uninhabited. Do our best to look positively

into the future. Still hatch plans, regardless of whether we will implement them in 2021 or later ... and just trust...

In the end everything will be fine.....
